

# How to Create user management

Dear all member,

How to create user management in joget workflow version 4 include in application, this function for manage user to access, example for limited access menu for display this user, create level user, etc.

maybe for this sample in content below :

MachForm

Manage FormsEdit ThemesUsersSettingsMy Account

Sign OutHelp

Users Manager

Create, edit and manage users permissions

Create New User

DeleteSuspend

Filter Users

	#	Name	Email	Admin Privileges	Status
<input type="checkbox"/>	8	Rebecca Moore	rebecca@example.com		Suspended
<input type="checkbox"/>	7	Thomas Dash	thomas@example.com		Active
<input type="checkbox"/>	6	Anthony Doe	anthony@example.com	Administrator	Active
<input type="checkbox"/>	5	Robert Dalton	robert@example.com		Active
<input type="checkbox"/>	4	Martin Lang	martin@example.com		Active
<input type="checkbox"/>	2	Claire Bennet	claire@example.com		Active
<input type="checkbox"/>	1	John Doe	john@example.com	Administrator (Main)	Active

Sort By --> User ID

thanks for attention and share knowledge yea...

best regards

Iman maryadi
