

# Joget DX 7 Knowledge Base

Use the search bar above to quickly find the topics you're looking for!

**Joget DX** is an open source platform to easily build enterprise web apps for cloud and mobile.

- Build **full-fledged** apps e.g. CRM, HR, Healthcare, etc
- Drag and drop **forms, lists, UI**
- Add **workflow** to automate processes
- Extend via **plugins**
- Apps are **mobile** optimized and **cloud** ready
- Download ready-made apps from the [Joget Marketplace](#)

Please note that some of the examples are for the Enterprise Edition, but the basic concepts are similar for the Community Edition.

If you're a new user, click [here](#) to get started on the basics on how to use Joget DX.

If you're a developer, click [here](#) to get started on getting Joget community source codes first.

If there are any questions or discussions, please head over to the [Questions](#).
