Figure 1: Map to Performer

Available options

- Performer
The performer of the chosen activity in the select box will be assigned.
- Performer's HOD
The performer's HOD of the chosen activity in the select box will be assigned. If the performer has its "Reports To" attribute set to a person, then it will take precedence over the default performer's department HOD).
- Performer's HOD (Ignores Report To)
The performer's HOD of the chosen activity in the select box will be assigned.
- Performer's Subordinates
The performer's subordinates (in the same department as the performer) will be assigned. It is assumed that the performer is a HOD.
- Performer's Department
The department's user(s) will be assigned of the chosen activity performer.

Do not pick activity from the same swimlane as the participant that you are currently trying to map unless this is a deliberate decision.

Be sure to pick an activity that is deemed to have already completed by the time system picks up this participant mapping.
