

Advanced CRUD Userview Menu

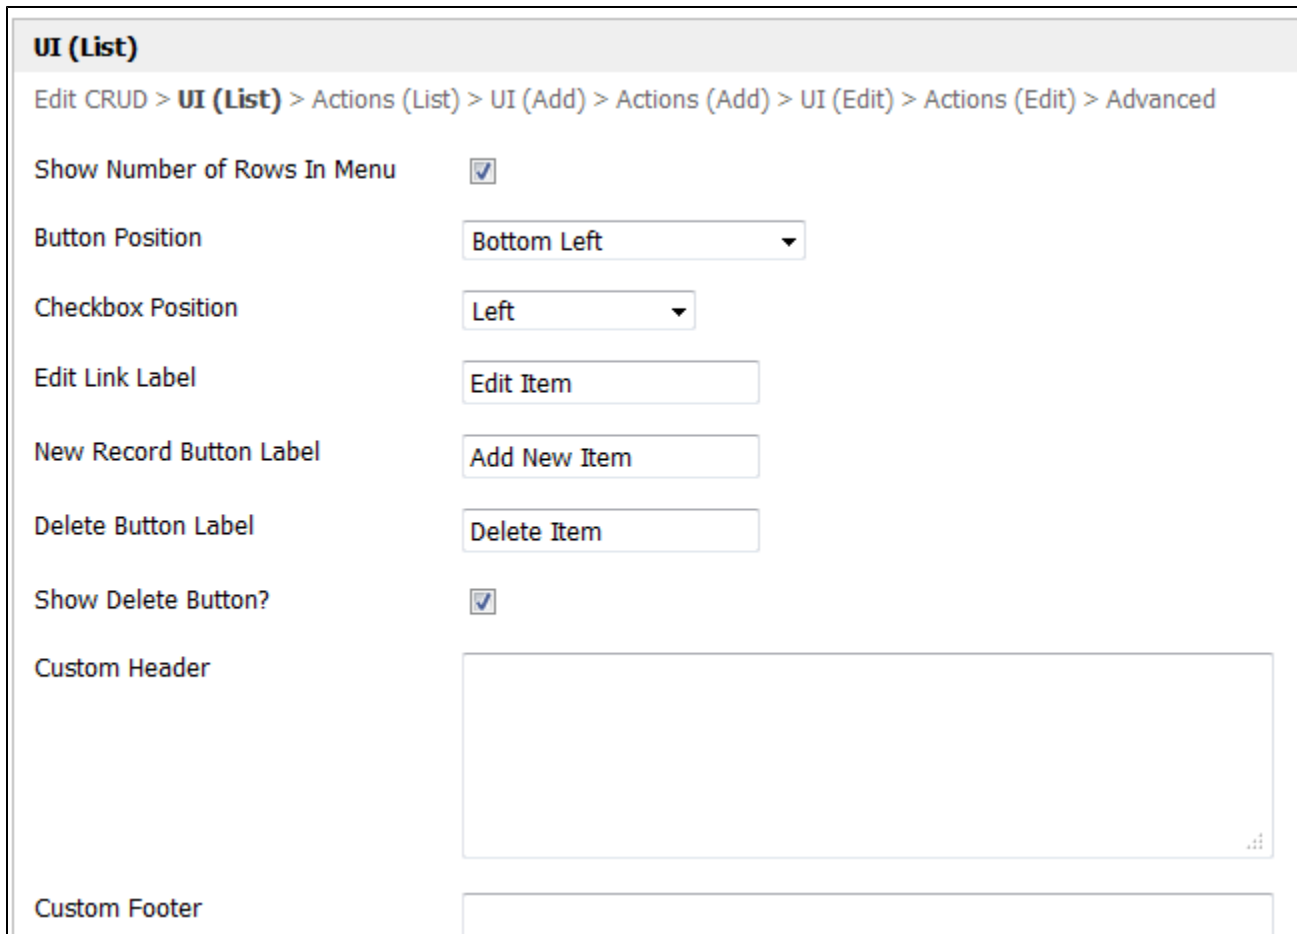

With **Advanced CRUD**, one will not need to do all the manual wiring in constructing a CRUD entity. This element equips you with plenty of customizations, making sure that you achieve what you want.

The screenshot shows a configuration form titled "Edit CRUD". At the top, there is a breadcrumb trail: "Edit CRUD > UI (List) > Actions (List) > UI (Add) > Actions (Add) > UI (Edit) > Actions (Edit) > Advanced". Below this, there are five rows of configuration options:

Custom ID	<input type="text" value="crud"/>
Label *	<input type="text" value="CRUD"/>
List Id *	<input type="text" value="Item list"/>
Form Id (Add)	<input type="text" value="Item Form"/>
Form Id (Edit)	<input type="text" value="Item Form"/>

Figure 1: Form and List Selection - The Only Requirement When Using Advanced CRUD (The rest are handled automatically.)

The screenshot shows a configuration form titled "UI (List)". At the top, there is a breadcrumb trail: "Edit CRUD > UI (List) > Actions (List) > UI (Add) > Actions (Add) > UI (Edit) > Actions (Edit) > Advanced". Below this, there are several rows of configuration options:

Show Number of Rows In Menu	<input checked="" type="checkbox"/>
Button Position	<input type="text" value="Bottom Left"/>
Checkbox Position	<input type="text" value="Left"/>
