

Map Participants to Users

There are various ways of defining the participant in a process flow.

- Map to Org Chart
 - Map to a Head of Department (HOD)
 - Map to an entire Department
 - Map to Performer
- Map to Plugin
 - Participant Bean Shell Tool
- Map to User or Group
 - Map to Group
 - Map to User
- Map to Workflow Variable

If there's no user returned as a result of the participant mapping, it will be defaulted to the current logged in user/ previous activity performer.
