

How to Activate Copy-Protected Joget Workflow Apps

This article is only applicable to users who want to import a copy-protected Joget Workflow app into their Joget Workflow server. The article will show you how you can activate the copy-protected app. It is assumed that the protected app is located on your desktop.

1. Login to your Joget admin **Web Console**. Next, under "Design Apps" menu, select "Import App". Select the copy-protected app from your computer desktop that you want to import into your web console. The following screen will prompt you for the **App License**. Please take note of "App ID", "License To" and "System key". You will need them to request for an "App license".

The screenshot shows the 'App License' form in the Joget Admin Web Console. The form is titled 'App License: hr_expense' and displays the following information:

- App License: **NOT ACTIVATED**
- App ID: hr_expense
- Licensed To: Free
- System Key: c55f4eb76336:13376c2697528090674
- Admin Username: admin
- Admin Password: ****
- App License: (Empty text area)

At the bottom of the form, there is a 'Submit' button and a link: [Click here to go back to the main page](#). The footer of the page reads: © Joget Workflow Enterprise - Open Dynamics Inc. All Rights Reserved.

2. Next, open up your web browser, go to the [Joget Workflow License](#) site. Select "Request for App License" and the following screen will be displayed. Fill in all the necessary information. The "App ID", "License To" and "System key" **MUST** be the same exact information you have gotten from the previous step. In this example, we are importing copy-protected HR Expense app.

The screenshot shows the 'Request for App License' form in the Joget Workflow License site. The form is titled 'Request for App License' and displays the following information:

- App ID: hr_expense
- License Holder / Licensed To: Free
- Desired Expiry Date: (Calendar icon)
- System Key: c55f4eb76336:13376c269
- Licensee Details:
 - Full Name: (Text input)
 - Email: (Text input)
 - Company / Organization: (Text input)
- Requester Details:
 - Requester Name: (Text input)
 - Requester Email: (Text input)
 - Requester Organization: (Text input)
- Comments: (Text area)

At the bottom of the form, there is a 'Submit' button. The footer of the page reads: Powered by Joget.

3. After you have successfully submitted the "Request for App License" form, you will need for the license to be generated. This usually takes about 2 business days or less. When the App license is generated, an email will be sent to you. The following screenshot shows what your email will look like. now you are ready to proceed to the next step.

4. Armed with the App License information that has been emailed to you, copy and paste in the App license. Ensure that there are no pre or trailing spaces. Key in your admin username and password. Next submit the form. If you did everything correctly, your copy-protected app should appear in the Web Console under Design Apps.
