

Browser Support

To make sure that your site and Editor run smoothly, we recommend updating all of your browsers to the most recent versions. Joget Workflow is compatible with the following browsers. Click the links below to download the latest versions:

- [Google Chrome](#)
- [Safari for Mac \(version 8 and above\)](#)
- [Internet Explorer \(version 11 and above\)](#)
- [Firefox](#)

What browser are you using?

[Click here to find out what browser you are using.](#)

The v6 builders ([Process Builder](#), [Form Builder](#), [Datalist Builder](#), [Userview Builder](#)) now support touchscreen devices (including mobiles and tablets). Read more about this in the blog post [The Future of App Development: Touch to Build?](#)
