Instructions

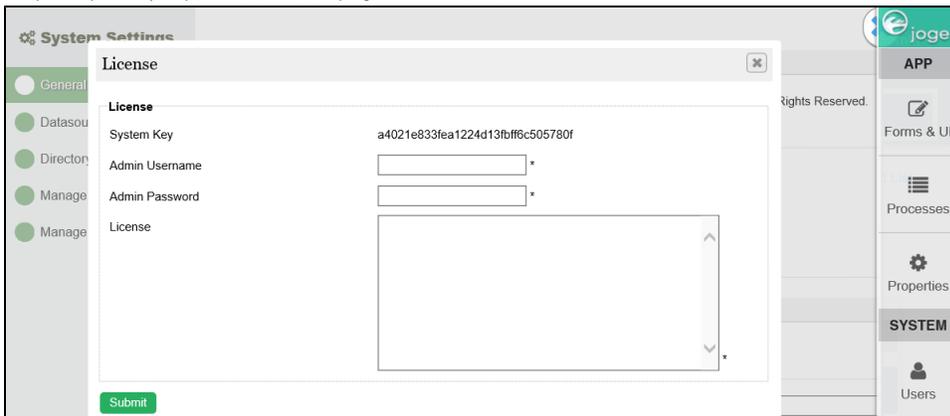

1. Obtaining your System Key

- Login to the Joget Workflow App Center as the administrator (default administrator username is "admin").
- From the Admin Bar, click on **Settings**.

- Click on the license link to bring up a pop-up window.
- Please refer to the following screenshot to get the system key.

The system key is a unique key that is different for every Joget Workflow installation.

- What you will need is the alphanumeric string, something like this "a4021e833fea1224d13fbff6c505780f". Copy the system key into your clipboard. Ensure that you only copied the string of alphanumeric text, no pre or trailing "spaces". See the screenshot above.

 You need to take note that the system key may change if the network interface changes, which will then require license reactivation.
