

General Settings - Server Locale and Time Zone

System Time Zone	<input type="text" value="UTC"/>	default: (UTC) Etc - UTC
System Locale	<input type="text" value="en_US"/>	default: en_US
System Date Format	<input type="text" value="dd-MM-yyyy hh:mm aa"/>	default: dd-MM-yyyy hh:mm aa
Using Locale Date Format	<input type="checkbox"/>	
Enable User Locale Selection	<input type="checkbox"/>	
User Locale Options (Language code, separated by comma ',')	<input type="text"/>	

In Joget Workflow v5, it is possible for one to define the timezone that Joget uses rather than using the server's timezone.

It is also possible to define the date format rather than using the default one.

By changing the locale, this would affect how date/time is presented system-wide.

JOGET WORKFLOW ENTERPRISE					
Inbox					
Process	Activity Name	Date Created	Service Level Mon	Due Date	
Leave Process	Submit Leave	12/4/15 12:06:13 PM	■	12/4/15 12:11:13 PM	
Leave Process	Submit Leave	12/4/15 12:06:13 PM	■	12/4/15 12:11:13 PM	
Leave Process	Submit Leave	12/4/15 12:06:13 PM	■	12/4/15 12:11:13 PM
