

Text Area

Text Area is one of the generic HTML Form input elements.

The snapshot build of the form shown below is taken from the CRM application found in Joget's installation package.

The screenshot shows a 'Proposal Form' with the following fields and values:

- Reference No: AUTO
- Account: Phillip
- Title: (empty)
- Description: (large text area)
- Attachment: (empty) with a 'Browse...' button
- status: pending

A 'HIDDEN FIELD' label is visible at the bottom right of the form.

Figure 1: Text Area

The 'Edit Text Area' configuration window shows the following properties:

- ID: description
- Label: Description
- Value: (empty text area)
- Cols: 20
- Rows: 5
- Readonly:
- Display field as Label when readonly?:

Figure 2: Text Area Properties

ID	Element ID
Label	Element Label
Value	Default Value
Cols	Column size of the element
Rows	Row size of the element

Readonly	Determines if the element is editable
Display field as Label when readonly?	Displays the value of the element as plain text when element is set to "Readonly".

One may extend the capabilities of this element by adding a validator as well as mapping its value to a workflow variable.

Read more about [Validators](#) and [Workflow Variables](#).
