

# Radio

Radio is one of the generic HTML Form input elements. It has the same setup as [SelectBox](#).

The image shows a screenshot of a web form titled "Proposal Form". The form has a header bar with the title "Proposal Form" and a "Drag This Column" instruction. Below the header, there are several input fields. The first field is "Reference No" with the value "AUTO". The second field is "Account", which contains four radio button options: Phillip, Warren, Sudaе, and Wendy. The "Title" field is partially visible at the bottom left, with a red asterisk indicating it is required.
