

# Form Options Binder to Directory Manager (User, Group, Department, Organization)

The extended **Form Options Binders** in the Enterprise Edition make it easy for you to populate selection-based Form Elements ([SelectBox](#), [Radio](#), [CheckBox](#)) based on the organization chart.

There are 4 binders to choose from, namely:

- **User Options Binder** - to return the list of users based on organization, department and group
- **Group Options Binder** - to return the list of groups based on organization
- **Department Options Binder** - to return the list of departments based on organization
- **Organization Options Binder** - to return the list of organizations
