

General Settings - Server Locale and Time Zone

You can define the **system locale** to automatically display the following values in your Joget DX system:

- timezone
- language
- date format

By clicking the **System Locale** and **Using Locale Date Format** checkbox, you can control how date and language is presented system-wide.

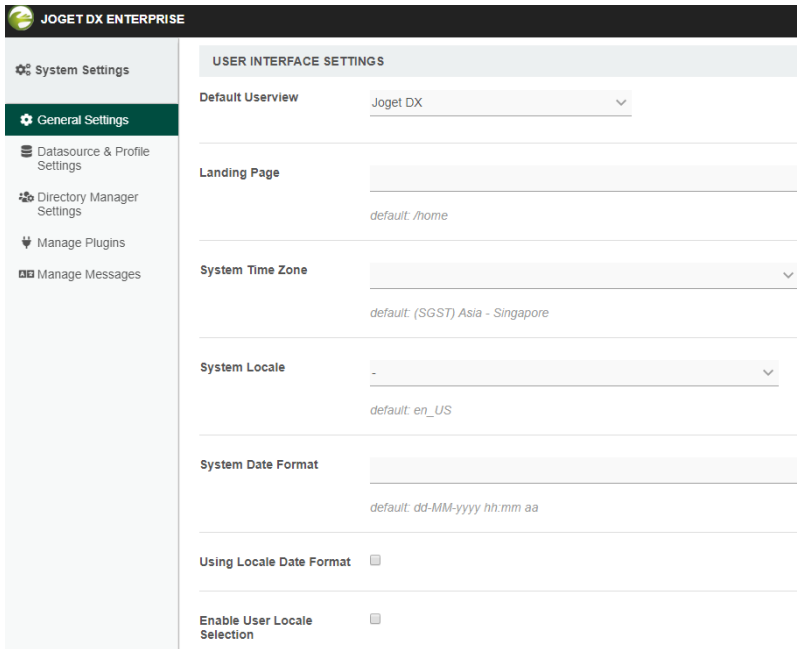

Figure 1: System Settings.

<input type="checkbox"/>	DATE	DATE & TIME	TIME	DATE CREATED
<input type="checkbox"/>	31/05/2020	31/05/2020	10:41:39	18/05/2020, 10:41:45
<input type="checkbox"/>	18/05/2020	18/05/2020	10:41:35	18/05/2020, 10:41:37

Figure 2: Datalist using **en_US** locale where date displays as mm/dd/yyyy.

<input type="checkbox"/>	DATE	DATE & TIME	TIME	DATE CREATED
<input type="checkbox"/>	31/05/2020	31/05/2020	10:41:39	18/05/2020, 10:41:45
<input type="checkbox"/>	18/05/2020	18/05/2020	10:41:35	18/05/2020, 10:41:37

Figure 3: Datalist using **en_GB** locale where date displays as dd/mm/yyyy.

This is the list of elements/modules but not limited to that may be influenced by locale settings.

- Date Picker

- Date Formatter
- Inbox

- Datalist Inbox Menu
- JSON API

Relevant Attributes: **System Time Zone, System Locale, System Date Format**

Changes

There are new changes where the user has an option to change their server timezone to UTC or GMT which is available from version 7.0.7 onwards.

For more information regarding this, please refer to [Version 7.0.7](#)
