

Joget DX 7 Knowledge Base

Use the search bar above to quickly find the topics you're looking for!

Joget DX is an open source platform to easily build enterprise web apps for cloud and mobile.

- Build **full-fledged** apps e.g. CRM, HR, Healthcare, etc
- Drag and drop **forms, lists, UI**
- Add **workflow** to automate processes
- Extend via **plugins**
- Apps are **mobile** optimized and **cloud** ready
- Download ready-made apps from the [Joget Marketplace](#)

Please note that some of the examples are for the Enterprise Edition, but the basic concepts are similar for the Community Edition.

If you're a new user, click [here](#) to get started on the basics on how to use Joget DX.

If you're a developer, click [here](#) to get started on getting Joget community source codes first.

If there are any questions or discussions, please head over to the [Questions](#).
