

Single Sign On (SSO)

IMPORTANT NOTICE

The sample code provided below using Javascript that exposes the user credential information is not a good security best practice. Please do not put this into practice.

- User logs in to external system and implicitly gains access to Joget Workflow without being prompted to login again.
- Used with JavaScript API
- Perform actions in callback of successful login

```
<script type="text/javascript" src="http://localhost:8080/jw/js/jquery/jquery-1.4.4.min.js"></script>
<script type="text/javascript" src="http://localhost:8080/jw/js/json/util.js" ></script>

<script type="text/javascript" >
$(document).ready(function(){
    var loginCallback = {
        success : function(response){
            if(response.username != "roleAnonymous"){
                alert("login successfully");
            }else{
                alert("login fail");
            }
        }
    };
    AssignmentManager.login('http://localhost:8080/jw', 'admin', 'admin', loginCallback);
});
</script>
```
