

Properties and Export

Here is where you manage the App's general settings.

The screenshot shows a web interface for managing an app. On the left is a sidebar with navigation options: 'Design App: Expenses Claim' (with 'Version 2' and 'Published' buttons), 'Forms & UI', 'Processes', 'Properties & Export' (highlighted), 'Performance', 'Logs', and 'All Apps'. The main content area has a top bar with buttons: 'Add Environment Variable', 'Add Message', 'Add Resource', 'Set Plugin Default Properties', and 'Export'. Below this is a tabbed interface with tabs for 'Notes', 'Environment Variable', 'Message', 'Resources', and 'Plugin Default Properties'. The 'Notes' tab is active, showing a table with one row containing the number '1'. A 'Submit' button is located at the bottom left of the main content area.
