

# Advanced Form Row Data Binder

Advanced Form Row Data Binder is an extended version of the default [Form Data Binder](#). It allows you to add in **Filter Conditions** in a guided and friendly manner.

Filter

Select Binder > Configure Advanced Form Row Data Binder > Filter > Advanced

Filter Conditions

Figure 1: Filter properties in Advanced Form Row Data Binder

In the example shown above, one is applying the following filters to the listing.

- 1. Value of field "approval\_status" is "Approved" **OR**
- 2. Value of the field "approval\_status" is "KIV".

Advanced

Select Binder > Configure Advanced Form Row Data Binder > Filter > Advanced

Extra Conditions

Figure 2: Advanced properties in Advanced Form Row Data Binder

One may also specify **Extra Conditions** for filters that are not available in the **Filter Conditions** on the previous tab. For example,

```
e.customProperties.amount BETWEEN 1000 AND 5000
```

Note that the keyword "e.customProperties." must be used as the prefix before specifying the usual Form Field ID.
