

Introducing the Mobile Edition

- 1. When accessing a Joget app from a mobile web browser (smartphone or tablet), the user will automatically be shown the mobile edition.
- 2. The mobile userview is presented in a mobile user experience which includes the look and feel, page transitions, some offline capabilities, etc.

- 3. Datalists are automatically converted from a tabular format into a more suitable mobile list format.

- 4. Forms are also automatically formatted accordingly.
