

Correction on the Use of Date Format

The example shows an incorrect use of the display format. It should also be dd/mm/yy.

Otherwise, you will get parse errors in the workflow processing.

See the actual settings in the attached example:

Property Editor

Edit Date Picker

Edit Date Picker > Choose Validator > Configure Validator > Workflow Variables

ID *	<input type="text" value="date"/>
Label *	<input type="text" value="Date"/>
Value	<input type="text"/>
Display Format	<input type="text" value="dd/mm/yy"/>
Data Format	<input type="text" value="dd/MM/yyyy"/>
Date Picker Year Range *	<input type="text" value="c-10:c+10"/>
Readonly	<input type="checkbox"/>
Display field as Label when readonly?	<input type="checkbox"/>
