

Map Participants to Users

There are various ways of defining the participant in a process flow.

- [Map to Org Chart](#)
 - [Map to a Head of Department \(HOD\)](#)
 - [Map to an entire Department](#)
 - [Map to Performer](#)
- [Map to Plugin](#)
 - [Participant Bean Shell Tool](#)
- [Map to User or Group](#)
 - [Map to Group](#)
 - [Map to User](#)
- [Map to Workflow Variable](#)

If there's no user returned as a result of the participant mapping, it will be defaulted to the current logged in user/ previous activity performer.
