

XRP Ledger Pack

This plugin pack is a **Proof Of Concept** (POC) and **not** ready for production use.

Feel free to clone the source and enhance/adapt to your requirements.

- [Introduction](#)
- [Sample App](#)

Introduction

The **XRP Ledger Pack** integrates XRPL with Joget, and allows you to design Joget apps that interacts with the XRP Ledger.

This plugin pack contains these plugins:

- [XRPL Generate Wallet Tool](#)
- [XRPL Send Transaction Tool](#)
- [XRPL Wallet Load Binder](#)

The plugin source codes can be found at [JogetOSS Github](#). Feel free to clone and customize to suit your needs.

To learn more about XRPL, see <https://xrpl.org/>.

Sample App

Do ensure that these plugins are installed in your Joget platform before trying out this sample app:

- [Process Enhancement Plugin](#) from the Joget Marketplace
- [XRP Ledger Pack](#) from JogetOSS
