

Create New Userview

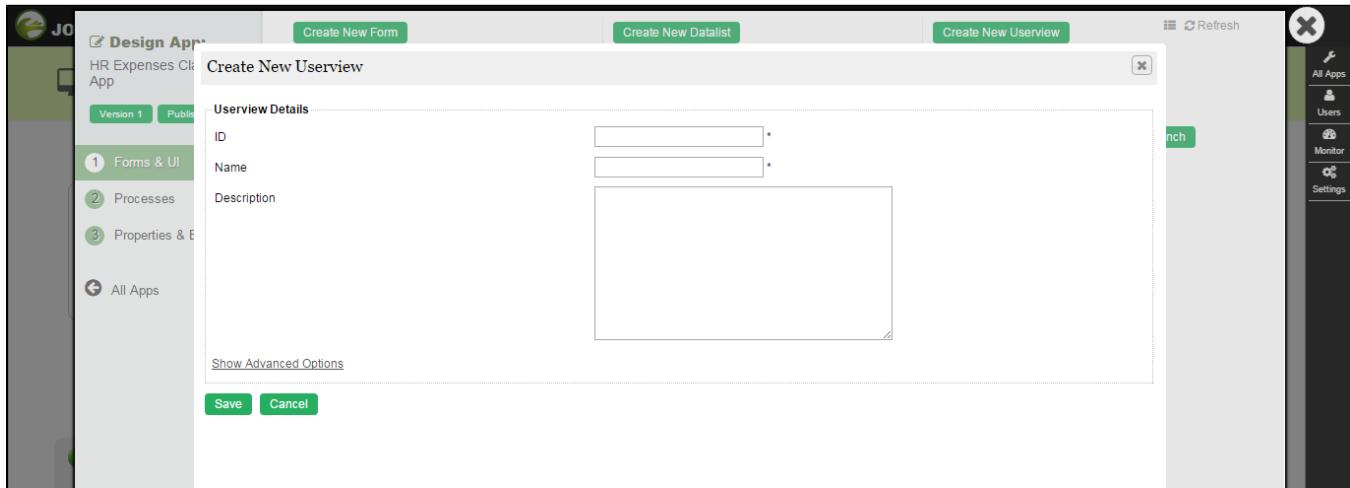

Figure 1: Create New Userview

This screenshot shows the 'Create New Userview' dialog with the 'Show Advanced Options' link expanded. It includes fields for 'ID' and 'Name', a 'Description' text area, and a 'Hide Advanced Options' link. Below these are sections for 'Duplicate Userview from:' (App: HR Expenses Claim App, Userview dropdown) and 'Save'/'Cancel' buttons. The overall layout is identical to Figure 1, but the advanced options are visible.

Figure 2: Create New Userview - Advanced Options

Name	Description
ID	<p>Unique ID to represent this entity.</p> <p>Naming convention</p> <p>A standard naming convention is highly recommended to be used across the development of your App to maintain consistency and ease maintenance works.</p> <p>Camel case naming convention is recommended for this field.</p> <p>Example: <code>leavePortal</code></p> <p>Important Note</p> <p>The ID declared here would be part of the eventual URL seen by the end users. Try to choose something short and meaningful.</p>

Name	<p>Name to represent this entity.</p> <div style="border: 1px solid #ccc; padding: 10px; margin-top: 10px;"> Example Leave Application Portal </div> <div style="border: 1px solid #ccc; padding: 10px; margin-top: 10px;"> Important Note The name declared here would be the userview name seen by the end users. Try to choose something short and meaningful. </div>
Description	Entity description.
Duplicate Userview from	With the above information filled up, one can choose to clone the design from existing Userview entity.
