 - [AJAX & Events](#)

Introduction

The Page Component **Script** is a feature to customize the page using custom Javascript.

Script Properties

Configure Script

Configure Script

ID

Javascript *

1

Name	Description
ID	Optional custom id. Value defined here must be unique to the rest of the page components as the first matching name will be called upon.
Javascript	The Javascript to be processed for this script component.

AJAX & Events

Events are fundamental to creating interactive and dynamic web pages and AJAX enables the development of more dynamic and interactive web applications without the need to reload the entire page.
