

# Showing Process Instance (List Record) Data in a Form

To show data from a process instance (e.g., list record) in a form, you must first [create a Form](#) where you want to show the data in.

You must also [create a Datalist](#) that will be shown in your userview and [add the Datalist](#) element to the userview.

Once you have created the form, you must add the form element into the userview. Be sure to set the 'Custom ID' property which will be part of the hyperlink used to view the data from within the form.

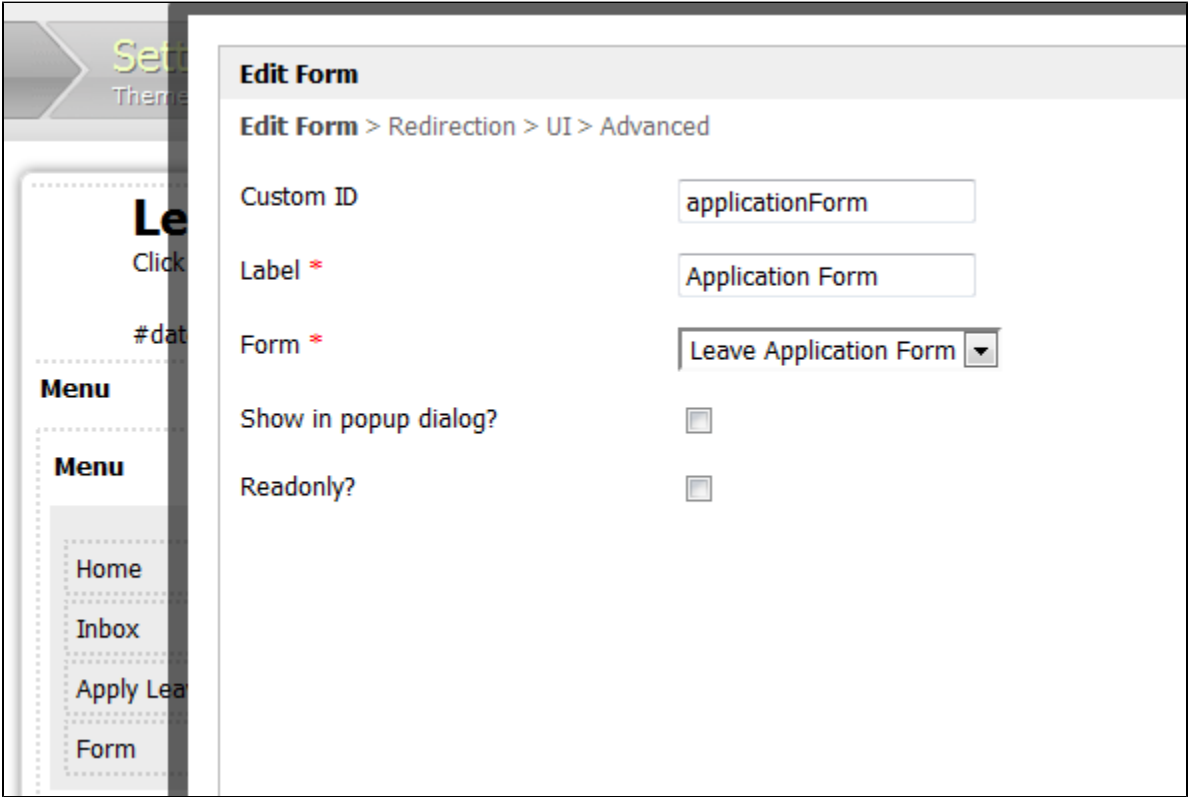

Figure 1: Create New Form Element in Userview

Once you have finished creating the form element, you'll want to create a hyperlink in the Datalist that will be shown in the Userview.

In Datalist Builder, add a **Hyperlink** action in your design.

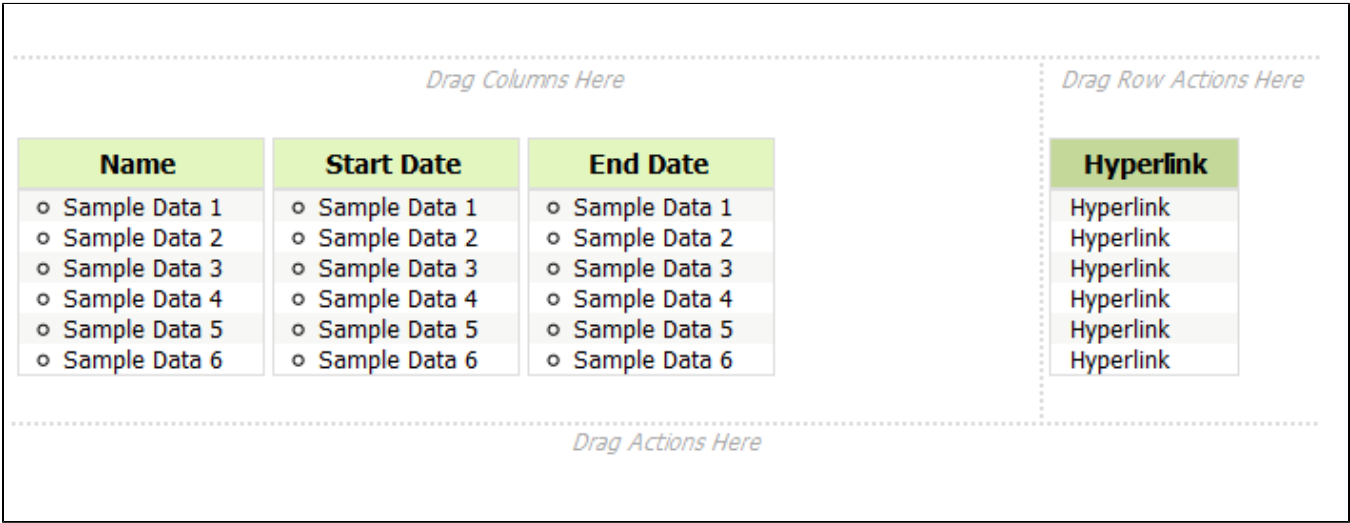

Figure 2: Add Hyperlink Action

In the 'Configure Hyperlink' action, the 'Hyperlink' property should point to the path of the form, indicated by the 'Custom ID' property you set above when adding the form element to the Userview. Be sure to specify the 'Hyperlink Parameter Name' and 'Column Name' properties as 'Id'.

### Configure Link

Hyperlink

Hyperlink Target

Current Window ▼

Hyperlink Parameter Name

Column Name

Label

Label shown in the column (for row actions)

Confirmation Message

Visible when no record or checkbox?

☐

Figure 3: Configure Hyperlink Action

Using the configuration above, an example resultant URL path would be

```
http://localhost:8080/jw/web/userview/leaveApp/userview//applicationForm?id=21162_leaveApp_applyLeaveProcess
```

which uses the format `hyperlink/hyperlinkParameterName/columnNameValue`

After you publish the app and click on the Datalist in the Userview, you should see a new column with a hyperlink to open the data in the form.

10 ▼ Show

	Name	Start Date	End Date	
<input type="checkbox"/>	Jack	02/01/2012	02/02/2012	Open
<input type="checkbox"/>	Siti	02/08/2012	02/09/2012	Open
<input type="checkbox"/>	Johnny	02/24/2012	02/26/2012	Open
<input type="checkbox"/>	Clark Kent	02/01/2012	02/03/2012	Open

4 items found, displaying all items.
