

The screenshot shows a workflow editor interface. On the left, there is a green sidebar with the text "& Export". In the center, a "Send Email" plugin is highlighted with a green box. To the right, a "Plugin Configuration" dialog is open. The dialog has a title bar "Plugin Configuration" and a sub-header "Configure Email Tool". Below this, the breadcrumb "Configure Email Tool > Email" is shown. The configuration fields are as follows:

Configure Email Tool	
Configure Email Tool > Email	
SMTP Host *	smtp.mail.com
SMTP Port *	2525
Does the SMTP need authentication?	<input checked="" type="checkbox"/>
SMTP Username	admin
SMTP Password	•••••

1:

The screenshot shows the "Email" configuration dialog. The title bar is "Email". Below it, the breadcrumb "Configure Email Tool > Email" is shown. The configuration fields are as follows:

Email	
Configure Email Tool > Email	
From *	info@domain.com
To (specific email address)	
To (participant ID)	requester
CC	
Subject	Application Approved
Message	Hi #requester.firstName#, Your application has been Approved.
