

Enabling Data Collection for SLA Implementation

You will need to enable the **Process Data Collector** plugin in your app's Plugin Default Properties before Joget can start collecting the data needed for the generation of [SLA report](#).

Go to **Properties & Export > Set Plugin Default Properties** -> Choose **Process Data Collector**.

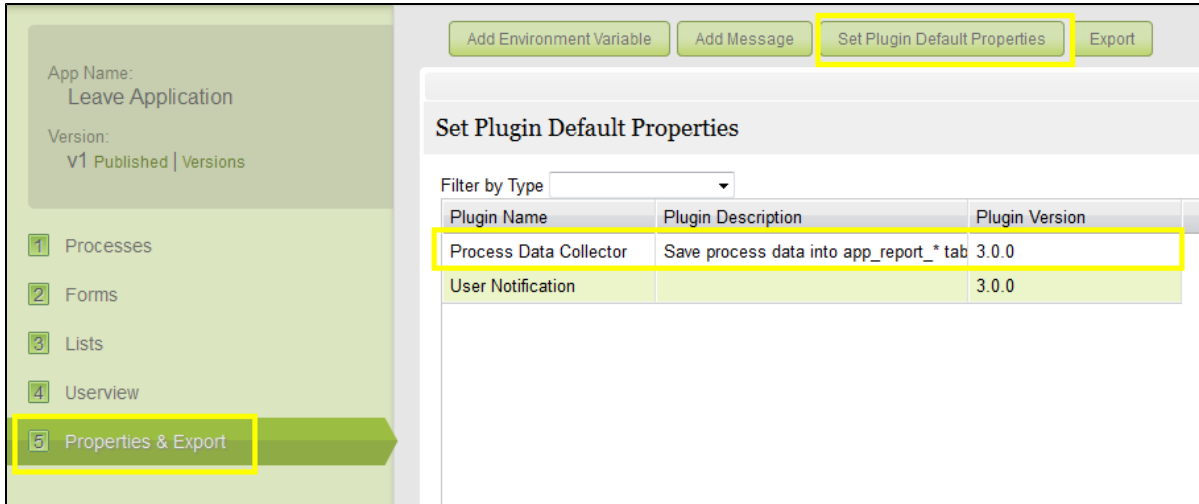

Figure 1: Enable Process Data Collector In the App

Without the Process Data Collector plugin enabled, you are likely to hit into the following stacktrace while accessing the SLA report in Userview.

```
java.lang.NullPointerException
