Introduction

Userview Builder lets you design the front-end interface in a matter of minutes. You may choose from the list of pre-loaded themes, or you may develop your own theme.

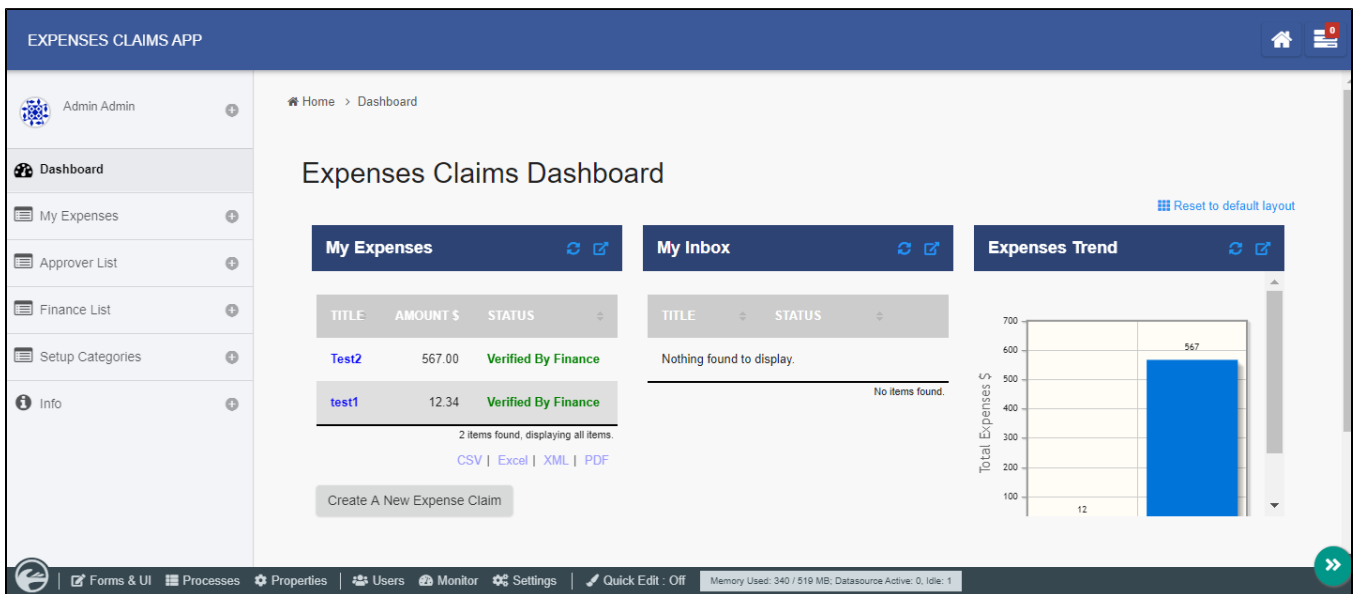

Figure 3: HR Expenses Claim App Userview with Front-end Admin Bar enabled

Front-End Admin Bar allows the administrator to easily locate and manage elements created from the published Userview itself.

In a Userview, menus are contained in Userview Category. In a Userview Category, one may manage its permission.

Userview Menu Element

- [Calendar Menu](#)
