

Properties and Export

Here is where you manage the App's general settings.

The screenshot shows the 'Properties and Export' section of an application. On the left, there's a sidebar with a tree view:

- Design App: Expenses Claim
- Version 2** **Published**
- Forms & UI
- Processes
- Properties & Export** (selected)
- Performance
- Logs
- [All Apps](#)

On the right, there are several buttons at the top:

- Add Environment Variable
- Add Message
- Add Resource
- Set Plugin Default Properties
- Export

Below these buttons, there are tabs: Notes (selected), Environment Variable, Message, Resources, and Plugin Default Properties. The Notes tab displays a single row with the number '1'. At the bottom right is a 'Submit' button.
