

Form Options Binder Plugin Example

A simple Form Options Binder plugin example for loading the month list for a DDL.

```
public class OptionBinder extends FormOptionsBinder implements FormLoadBinder {

    public String getName() {
        // your plugin name
        return "Simple Form Option Binder";
    }

    public String getVersion() {
        // Here you can add version for your plugin
        return "1.0.0";
    }

    @Override    public String getLabel() {
        return "Add Your Label";
    }

    public String getDescription() {
        // Here you can add description for you plugin
        return "Simple FormOptionBinder plugin used for loading Months";
    }

    public String getPropertyOptions() {
        // if you not wishing to change the default property options just use
        // else you can refer to Git hub for how to set proprtyOptions
        return super.getPropertyOptions();
    }

    public FormRowSet load(Element arg0, String arg1, FormData arg2) {
        FormRowSet monthRowSet = new FormRowSet();
        FormRow month = null;
        // This example is sample for Loading the months
        String []months = new DateFormatSymbols().getMonths();
        for(int i = 0;i<months.length;i++){
            FormRow month = new FormRow();
            month.put(FormUtil.PROPERTY_LABEL, months[i]);
            month.put(FormUtil.PROPERTY_VALUE, i+1);
            monthRowSet.add(month);
        }
        return monthRowSet;
    }
}
```
